Introduction

1. In response to the note of the Secretary-General of UNCTAD dated 23 November 1973 requesting preference-giving countries to provide information on the operation of their respective schemes of generalized preferences, the Government of Austria has provided information on various categories of imports of products covered by its schemes for the period from 1981 to 1984. A summary of the information on Austrian imports from beneficiaries is given in table 1 of the statistical annex, showing, for all and individual groups of beneficiaries (part A) as well as for each individual beneficiary (part B), total, MFN dutiable, covered and preferential imports of products falling within the relevant CCCN chapters. 1/

Austrian imports from beneficiaries in 1983 and 1984

2. Austria registered imports from 120 beneficiaries in both 1983 and 1984, of which 109 and 112, respectively, supplied goods covered by its scheme of generalized preferences. More than half of those availing themselves of the benefits of preferences (60 in 1983 and 63 in 1984) were granted GSP treatment, while another 49 in each of these years did not receive such treatment either because they did not satisfy the origin and/or notification requirements or because they did not claim it.

3. Dutiable imports from beneficiaries in 1983 amounted to $1,566.3 million, of which $1,436 million, or 92 per cent, were covered by the scheme. However, for the reasons given in paragraph 4 below, only about 20 per cent ($284.5 million) actually received preferential treatment. In 1984, the ratio of covered imports to dutiable imports (the coverage ratio) and that of preferential imports to covered imports (the rate of utilization) were 92.4 per cent and 18.5 per cent, respectively.

4. While the proportion of covered to dutiable imports was relatively high for both industrial and agricultural products, the average rate of utilization of the scheme remained very low. This low rate of utilization was largely due to the fact that imports of certain products covered by the scheme, such as bananas (CCCN ex 08.01), raw coffee beans (CCCN ex 09.01), raw cocoa beans (CCCN ex 18.01), and crude oil (CCCN ex 27.09), for which MFN tariff rates were temporarily suspended on a world-wide basis and which constituted the bulk of covered imports (shown in part B of table 1) were not reported as receiving GSP treatment and thus were not included in the value of preferential imports (column 5). This results in a substantial understatement not only of the rate of utilization for all and individual categories of products but also of the rates of utilization of the scheme by all and various groups of beneficiaries as well as by individual beneficiaries, especially by those supplying the bulk of goods subject to this tariff treatment.

1/ Since the trade effects of the Austrian scheme for 1981 and 1982 have already been analysed in TD/B/C.5/PREF/25, only those for 1983 and 1984 are discussed in the present document.

5. Nine and 14 major beneficiary suppliers (MS) in 1983 and 1984, respectively, accounted for 57.5 per cent and 80.2 per cent of total preferential imports from beneficiaries. By order of importance of their trade covered by the scheme, these major supplying beneficiaries were:

in 1983: Saudi Arabia, Algeria, Libyan Arab Jamahiriya, Mexico, Yugoslavia, Brazil, Democratic People's Republic of Korea, Tunisia and Nigeria;

in 1984: Libyan Arab Jamahiriya, Algeria, Nigeria, Saudi Arabia, Yugoslavia, Brazil, Republic of Korea, Iraq, Taiwan Province of China, Romania, Hong Kong, Mexico, Islamic Republic of Iran and Turkey.

Imports from Least Developed Countries (LDCs)

6. The performance of the LDCs under the Austrian scheme was similar to that of all beneficiaries in the sense that both their coverage ratios and their rates of utilization of the scheme decreased from 1983 to 1984, even though the value of LDC exports of products which actually received GSP treatment remained unchanged as a result of the sharp decline in preferential imports from Ethiopia, Guinea, Comoros, Mali and Sierra Leone.
